EMPLOYMENT EXPERIENCE

School of International and Public Affairs, Columbia University (New York, USA) ***August 2024 – Present***
Pre-Doctoral Researcher
- Working for Professor Robert Metcalfe on multiple projects including investigating the welfare effect of climate policies and field experiments in behavioural economics.

Bank of England (London, UK): Ranked in the top 10% of interns both summers.
Summer Intern ***June 2023 – August 2023***
- Completed research project on R, evaluated two datasets with 50 million daily entries about margin paid on financial derivatives for consistency. Liaised with staff to correct inconsistencies in reporting by clearing houses.
- Presented findings to over 30 people across the Bank, providing feedback as to how to monitor firms better.

Summer Intern ***June 2022 – August 2022***
- Conducted data project using word analysis on Python, evaluating survey responses about monthly price shifts of 500 SME firms. Assessed changes in causes of inflation; determined reliability of responses in forecasting inflation.
- Developed a programme with a reproducible code to track future survey answers to help with inflation now-casts; presented results to Monetary Analysis Team; findings were reviewed in pre-MPC meetings to set national rate.

Homerton College, University of Cambridge (Cambridge, UK) ***March 2022 – April 2022***
Telephone Campaign Officer
- Corresponded with alumni of Homerton College and raised £9687 in donations, compared with an average of £320.

EDUCATION
